

I am a single parent of 3. They live and breathe K-Love. It is on every radio we have. Both at my home and their mothers, including my car. In the sinking moral climate in this country, taking away something that is positive for the younger generation is just wrong. K-love`s focus is on God and his love for us all. They never deviate from that path. I have been a monthly donor, even when it hurts. This is great for our youth and all that hear and would be tragic to take that away.
